Dear Kevin,

On behalf of the Governors, Staff, Children and Parents, we want to thank you and your colleagues so much for your role in vastly improving the quality of the curriculum which is delivered in our school.

The innovative way in which you have devised and installed our interactive lighting and sound is simply amazing. Both our pool and light room are now used for the delivery of many of the subjects of the National Curriculum as well as being an effective assessment tool for our children with more profound difficulties. The children (and the staff), I must add, use both rooms for having a lot of fun and enjoyment as well!

I cannot praise the quality and professionalism of the installation enough. You and our colleagues co-operated so well with us and fitted into our school day brilliantly. The children enjoyed asking you lots of questions and the staff appreciated the minimum amount of disruption.

We hope that you share our pride in our new facilities and we look forward to working with you in the future.

Yours sincerely,

A handwritten signature in black ink that reads "Pat" followed by a horizontal line.

Mrs Pat Stewart OBE
Headteacher
