Dear Kevin

Lighting System for St. Anthony's School Chichester

I am so happy with the results of the lighting system in the pool area of our school. The effects are stunning and I can't wait to be able to utilise this valuable resource with the pupils. I know that it is going to make a big impression on everyone who sees and uses it.

The service you provided was efficient and fast. The job was finished in the time scale we discussed and that counts for a lot when a school timetable has to be taken into consideration.

The end result has exceeded our expectations. On behalf of the staff and pupils at St. Anthony's thank you.

Yours sincerely

Ruth Aspden
Assistant Headteacher
